The New Era.

Newmarket, Friday May 29th, 1887.

General Summary.

SOLO & SHEPPARD coming with "fun for the million," and will arrive on Friday next, the 31st proximo. The programme of proceedings is a large one and well calculated to please the lovers of Equestrianism and Gymnastics.

Sharon Festival takes place on Saturday the 6th proximo. No doubt the attendance will be large; and the good people of that place will make great exertions to render the occasion a pleasing one.

Several advertisements have been unavoidably crowded out for want of room—both new and old. Our friends will have to bear with us a week or two longer, and the reason for extensive advertising will be over.

The Newmarket Cricket Club plays their first game for the season, on the ground near the Factory, to-morrow, (Saturday)—Wickets will be pitched at 3 o'clock p. m., precisely. All the old members, and any others that may wish to join are expected to be present on that occasion.

Mr. Wm. PETRIE, late of the Royal Lyceum, Toronto, gives a Scottish Entertainment at Hawk's Hotel, Newmarket, this (Friday) evening. On that occasion he will be assisted by Mr. Williamson, the celebrated Horn-pipe and Highland Dancer and Mr. Wyre, of Toronto Theatre. Doors open at half-past seven. Admission, 13c each.

"RAMBLER IN CALIFORNIA," containing a Description of the Country—Life at the Mines—State of Society, &c., by Pringle Shaw, is the title of a neat little work of nearly 250 pages. As yet we have not had time to read it through, but from a cursory glance we perceive it is written in a clever style and in an interesting manner, interspersed with many anecdotes. Next week we may probably give a chapter, in order that our readers may be enabled to form an idea of the character of the work.

Whitchurch Township Council.

The Municipal Council of Whitchurch met at Sangster's Inn, Stouffville, on Monday last, the 25th inst., pursuant to notice. All the members present, the Reeve, J. Hartman, Esq., in the chair.

A number of Petitions from various parts of the Township were presented, praying for grants of money on roads and bridges; also from several School Sections, desiring alterations, which were received and read.

A memorial was also presented from Mr. Joshua Miller, 8th Con., of Whitchurch, praying for a reduction in his Tavern License fee.

On motion of Mr. Jones, seconded by Mr. Truitt the above License fee was reduced to \$7, including Imperial fee.

On motion of Mr. Irwin, seconded by Mr. Taylor, the petition of Joseph Saunders and six others, in reference to dissolving the union with Markham, in School Section No. 2, was not granted.

On motion of Mr. Irwin, seconded by Mr. Taylor, the Overseers of Highways for Division No. 1 Newmarket, were ordered to refund to Mr. A. Corryell the sum of \$4 25. Ogd. expended by him last year in excess of money collected—the said sum to be paid from road moneys coming into their hands this year.

Mr. Jones moved, seconded by Mr. Irwin, that Samuel Siddons, senior, be appointed Overseer of Highways for Road Division No. 4, in the 3rd Con., in place of Jonathan Petch, removed.—Carried.

On motion of Mr. Willson, seconded by Mr. Taylor, Edward Randall was authorized to expend his statute labor in keeping in repair the bridge across the Millpond on his property.

On motion of Mr. Willson, seconded by Mr. Jones, Messrs. Taylor and Willson were authorized to expend the proceeds of sale of timber on the 5th Con., Lido from Lots No. 16 to 20 inclusive, in improving said road; and the Reeve and Jared Irwin were appointed to superintend the expenditure of the proceeds of sale of timber on side line road between Lots 10 and 11, and between Lots 15 and 16, in the 2nd Con., in improving said road.

A By-Law was then introduced and passed through three readings, making sundry alterations in several School Sections in the south-easterly portion of the Township.

A By-Law was also introduced and passed, appropriating the sum of \$365 in improving various roads in the Township, as follows:—

On the Side Line road between Lots 20 and 21 from the 4th Con., eastward, \$75.

On the Big Marsh on the 8th Con., at Lots 17 and 18, \$12 10c.

On the Town Line North, the sum of \$50, provided the Municipal Council of East Gwillimbury appropriate and expend an equal amount, for the same purpose.

On the Side Line in the 1st Con., between Lots 20 and 21, to build a bridge across Hartman's creek; \$50.

On the Sand Hill, at Lot No. 16, in the 3rd Concession, \$7 10c.

On the Side Line between 10 and 11, in the 2nd Concession \$10.

On the road running through Lot 33 in the 2nd Concession, \$15.

On the Roads and Streets in Division No. 1, Newmarket \$25; Division No. 2, \$15. Total to Newmarket, \$40.

On the Hill at Lots 28 and 29, in the—Concession, \$25.

On the Hill at Lots 23 and 24 in the 6th Concession, \$12 10c.

On the Hill at Lot No. 6, on the 4th Con., \$20.
On the Hill at Lots 13 and 14 on the 6th Concession Line, \$25.
On the 7th Lido from Lots 10 to 25 inclusive, \$20.
On the Hill at Lots 16 and 17 on the 8th Con. Line, \$12 10c.
On the 5th Con. Line along Lots 5 and 6, \$7 10c.

The Council then adjourned,—to meet at Aurora on the call of the Reeve.

Collingwood.

Last week we took a trip up the Northern Railroad to the future town of Collingwood, and was surprised at the rapid progress the locality had made during three years. Quite a large proportion of the buildings erected are spacious edifices; and the streets being wide and roomy gives it the appearance of a city. It is true, much labor and means will yet have to be expended to make the roads just such as would be desirable; but a stranger cannot but be impressed with the fact, that the people of that rising locality have done a great work.

Nearly every house—that is in the Town proper—is some place of business, such as stores, hotels, and shops of different kinds of mechanics.

From the Armstrong House, which, by the way is a first-class Hotel, capable of accommodating about 250 guests at one time, with an attentive and accommodating proprietor, we have a splendid view of the Harbor and Lake; and the close proximity of this Hotel to the Depot and Steamboat Landing renders it the most convenient stopping place in the Town.

There are several large stores in the place, filled with a general stock of goods; of those we might mention the names of Mr. J. H. Lawrence, Mr. Jas. Smith, Messrs. Rowland & Co., and Messrs. J. H. Jones & Co., as the most prominent. Our old friend Mr. John Tyson has erected a beautiful dwelling within a few rods of the lake shore, at considerable expense, and is now beautifying his grounds. This gentleman in company with Mr. Smith, we understand, built and own one of the large wharfs of Collingwood Harbour, at a cost of \$7,000. They purpose erecting a large store-house upon it this summer.

The trip was really a pleasant one; and with the kind attention paid by the Conductors on the Cars, and the frank generosity of the people of Collingwood, it was one not soon to be forgotten.

Newmarket Cricket Club.

The Annual Meeting of the above Club for the Election of Officers for the current year, and the transaction of general business took place at Wright's Hotel, Newmarket, on Tuesday evening last, the 26th inst. In the absence of the President, the first Vice-President—Mr. Brodie—was called to the Chair; and Mr. Bathrick requested to act as Secretary.

The Club then proceeded to nominate and ballot for Officers, and the following is the result of the election:—

President—Mr. William Hurrell.
1st Vice do.—Mr. Wm. Wallis.
2nd Vice do.—Mr. John Stirling.
Secy. & Treas.—Mr. E. Jackson.

General Committee.
Messrs. Boulbee, Bathrick, Brodie, Kory-Correll, Spencer and Wright.

A resolution was adopted appointing Messrs. Boulbee, Hurrell and Stirling a committee to draft Rules and Regulations for the Club, and to report next meeting.

The Subscription of members for the current year, was fixed the same as last season, at 5s.; and apprentices, at 2s. 6d.

It was ordered that the regular day on which the Club would meet for practice weekly should be Tuesday; wickets pitched at 3 o'clock p. m.

After some further minor business, such as admitting new members and making arrangements for a supply of new Bats, &c., the meeting adjourned.

Correspondence.

We wish to be distinctly understood that we are not responsible for the opinions of our correspondents.

Mechanics' Institute.

To the Editor of the New Era.

Sir—Allow me through the medium of your valuable paper to express to you the pleasure I experienced on Monday, the 25th inst., in visiting the thriving village of Aurora, and also in attending the Festival of the Aurora Mechanics' Institute, which was held in the Woods adjoining the Railway Station, where Nature in all its primeval beauty displayed its charms,—the scene being enlivened by the Works of Art in the form of a good Saxo-Horn Band. The performers displayed their musical talents and genius, whilst the delighted listeners regaled themselves on the good things spread before them. The creature comforts having been dispensed, the Band struck up a lively air, after that the President of the Institute made a short address, regretting the absence of some invited gentlemen who could not attend. After stating the condition of the Society, which is prosperous, he introduced the President of the Newmarket Mechanics' Institute. Imagine the gratification I felt, at seeing two out of three of the speakers on the Platform, were from Newmarket. Hailing from that Port myself I naturally felt proud, that with all our faults we had at least some gentlemen who took an interest in such institutions.

Well Sir, the gentleman I mentioned dashed off in fine style, and maintained it with great ease for some time. He told the good folk that we had an Institute at Newmarket; that we also had a closing meeting, and that it passed off well; but it was not anything to compare with the Aurora Festival in any respect. Well, Sir, I have no objection to every gentleman expressing his sentiments,—that is, our greatest liberty; but Sir, under the existing circumstances we are in inferiority yet, I thought it might just as well have

been left out, as these invidious comparisons do little or no good.
The Band then played an air, and the Chairman in a very neat speech introduced another member of the Newmarket Institute, who, after complimenting the assembly, told them "he felt great pleasure in addressing them as he felt quite at home amongst them; and although he lived at Newmarket, he felt there was not a man of any prominence in Aurora, but what would do him a favor if he asked him." I inferred from that, he thought different of Newmarket. I may be wrong; for, Sir, I am certain the same feeling exists amongst all classes here, as the Revd. gentleman depicted at Aurora. When the gentleman lectured before the Newmarket Institute, no lecturer drew a larger and more attentive audience than him, and I am quite sure no man gave more general satisfaction.

But Mr. Editor, the grand coup-de-main was to come the worthy gentleman in continuing his remarks, paid the Aurora Institute another compliment (which they well merited) on the "unanimity amongst them" and said that (poor unfortunate) Newmarket had an Institute also; that would be tremendous strong, there; but we all pulled different ways. "O horror of horrors!" our own men condemning us wrongfully before an assembly of persons who at the best have a poor opinion of us. Now, Sir, as I said before we all have a right to our opinion, but I am sorry that anything should be expressed that will leave a wrong impression. And, I think I can with boldness assert, and you will bear me out, as Secretary of the Institute, that the greatest unanimity has prevailed in getting up the Institute at Newmarket, and carrying it on; and I can safely say that whenever the people of Newmarket have been appealed to in a straightforward manner, either in acts of public improvement, benevolence or religion, the majority never failed to respond. In the general management of the Institute the most courteous, and gentlemanly bearing, have been manifested toward each other, plainly illustrating that there is a dignity in labor, and although a man earns his living by the sweat of his brow, yet he knows how to appreciate a system or institution based on the principles of a Mechanics' Institute, and there has been a strong pull, a long pull, and pull altogether; and to prove what I say I will just state that we raised amongst ourselves the sum of sixty-five pounds, &c. (independent of any government grant;) through the season we have had a series of intelligent lectures by men of learning; we also have had a Reading Room open, and a Debating Class where men of diversity of opinions and creeds mingled freely and expressed their sentiments in reference to the matter of debate boldly, but courteously; and, Sir, I am not aware that the slightest ill feeling was engendered by any one, nor the slightest possible appeal to that organ of combativeness which produces such very striking arguments. The only difference of opinion there has been, was which would be the best way of conducting matters, and the only rivalry was, which could serve the Institute best, at the smallest amount of outlay. And, Sir, I am pleased to say we have wound our season up with a very pleasant Soiree, with a balance in hand of fifty dollars, and the promise of fifty pounds from Government to commence operations next season.

In conclusion, I will add that those parties who do not think we pull together as we ought, in the name of the Newmarket Institute, I extend to them a hearty invitation, to come and attend our meetings and show us what to do.
Trusting that our good Queen may live many years to have her birth-day celebrated by Mechanics' Institutes.
I remain, yours respectfully,
CRANKY.

Newmarket, May 26, 1887.

Parliamentary.

Legislative Assembly.

Friday, May 22, 1887.

The Speaker laid before the House a statement of the names and residences of the stockholders of the Zimmerman Bank; also a return from the London Savings Bank.

Hon. Mr. Tinnell presented the Report of the Minister of Agriculture.

Mr. Gamble moved for Address to His Excellency for a return showing the amounts received separately in the various Counties of Upper Canada during the past three years for land sales, and a similar statement in regard to Lower Canada, with the expenses of management of each section for the same period.—Carried.

THIRD READINGS.
The following Bills were read a third time and passed:—

Bill to incorporate the Bank of Bradford—Mr. Daly.

Bill to incorporate the general civilization of the Indian Tribes, &c.—Hon. J. A. Macdonald.

Bill to protect the rights of married women—Hon. Mr. Cameron.

Bill to authorize the city of Toronto to erect Water Works and to levy a rate—Mr. Bower.

Bill to enable the Trustees of the Toronto General Hospital to raise a further sum of money—Mr. Bower.

Bill to incorporate the village of Ferguson—Mr. Clarke.

Bill to abolish the rights of primogeniture, and to afford relief to parties succeeding to the real estate of persons dying intestate in Upper Canada—Hon. Mr. Cameron.

Bill to change the Tenure of Indian Lands in the township of Dundas—M. Somerville.

Bill to incorporate the Toronto and Orca Sound Central Railway Company—Mr. Jackson.

Bill to authorize the construction of a line of Railway from some point on the Southern line of Railway through Brantford to some point on the Great Western Railway—Mr. Christie.

Bill to alter and amend the Act relating to the Galt and Guelph Railway, and to incorporate the Preston and Berlin Railway Company—Mr. Clarke.

Bill to amend the Criminal Law as regards the uttering of counterfeit coin—Hon. Mr. Cartier.

Bill for further increasing the efficiency and simplifying the proceedings of the Court of Chancery—Hon. J. A. Macdonald.

The remainder of the night was spent in discussing various items in the estimates. Frequently not more than 44 or 48 members were present—not half. The House rose at 12 o'clock.

Saturday, May 23.

Mr. Loranger presented a petition from Joseph Donoghue, of Montreal, Esq., which set forth that he is the proprietor of property in Capitol-Street, Montreal, adjoining the property of the Harbor Commissioners, connected with the property of one Wm. Davy, by a gallery crossing over Capitol-Street.—The Harbor Commissioners and one Coleman

had been indicted on account of this gallery, and a verdict rendered against them, which was set aside by three judges. After the judgment, a clause was inserted in a Bill providing for the management of the harbor, authorizing them to retain this gallery—a matter totally foreign to the said Bill, and in violation of the rights of the petitioner. Mr. Loranger moved to suspend the rule in order to enable him to introduce a Bill to abolish the clause referred to.

Hon. Mr. Cameron said the House "about" passed before they consented to this motion. The clause had not been introduced by the Harbor Commissioners, but at his own suggestion, and with the concurrence of the Private Bill Committee; and its object was not to affect the rights of any individual, but rather to protect the rights of all persons concerned.

Mr. Holton said the private rights of Mr. Donoghue were as much preserved by this clause as they ever were.

After some further discussion, the motion was granted, and a Bill introduced and read a first time.

On motion of Solicitor General Smith, the Bill relative to the despatch of business before Grand Jurors (from Legislative Council), was read a third time and passed.

On the motion of Hon. Mr. Spence, the Bill to authorize the City of Hamilton to negotiate a loan of £100,000, was read a second time.

On the motion of the Hon. Mr. Spence, the House went into Committee on the Bill to amend the Act for the Construction of Water Works in the City of Hamilton.

The House then went into Committee on the Estimates, and after adopting several items, adjourned till Tuesday.

Tuesday, May 26.

The Speaker took the Chair at 3 o'clock. Mr. Holton moved that hereafter till the end of the session, the House do meet on Mondays and Thursdays at ten o'clock a. m.

Mr. Bellingham objected to the motion, on the ground that the proposed arrangement would prevent the sittings of Committees, especially the Grand Trunk Committee, except on three days of the week.

The motion was agreed to.

The Speaker read a letter from the Governor's Secretary intimating that His Excellency would come down to-morrow at two o'clock, to give his assent to Bills which had passed the Legislative Council and Legislative Assembly.

The House proceeded to a further consideration of Resolutions reported from Committee on Supply, and passed the remaining items of the Estimates, when the House adjourned.

Foreign and Colonial.

Late News from Mexico.

WASHINGTON, May 22.

New Orleans papers of Friday and Saturday of last week are to hand. They contain Vera Cruz dates to the 9th and Mexico of the 5th inst. There is no positive information of the execution of General Crutcher and party. Orders had been issued to bring the prisoners to Mexico for trial, and it was believed to be the intention to clear them if possible. Letters say that 500 more filibusters had entered Arizona, and encamped in the region of Tristram. In the battle with General Crutcher the loss of the Mexicans was heavy.

Another conspiracy to revolutionize the country was discovered on the 29th ult. The plan was to seize the person of President Comstock and then attack the city. Captain Noguera, a protégé of Comstock, was to plunge a dagger into his patron's breast, and his death was to be the signal of the attack. The ringleaders in the conspiracy had all been arrested and it was rumored they would be beheaded. Others had also been arrested, said to be concerned in the affair. It was reported that Ex-Minister Aguilar was also implicated.

Two British and two French Ships-of-war were in port at Vera Cruz.

The subscription books of the Pacific Railroad at New Orleans were to be closed on Tuesday last. The subscriptions had been liberal.

It is estimated that the troops now moving in the direction of Utah are about 2,000 men.

There are two vacant Judgeships in the territory which will be soon filled, and probably another Marshall will be appointed, as preliminary to enforcing civil processes.

Prices of Wool.

We notice that there is more than the usual excitement in regard to the probable price of this year's clip of Wool. The opinion is generally prevalent among the farmers that the price will be seriously affected by the operation of the new tariff, which makes all wool free that costs twenty cents and under at the port of embarkation. If invoices are honestly made this alteration will not materially affect the finer wools that have heretofore formed the bulk of the production in the United States.

The competing wools are the Australian, and part of the South American, which correspond to our merinos. These wools are now comparatively higher in London than in New York; so much so, indeed, that it will be an object for manufacturers to purchase our wools at prices in advance of last year.

The change which has been going on in the farming of the older States since 1840 has been more marked in sheep husbandry than any other branch. From 1840 to 1850, the total increase in the number of sheep was not far from five millions, while the decrease was about three millions, leaving the actual increase at only two millions in the ten years, whereas by the natural law of increase the entire stock should have been at least doubled.

The decrease was in the older States, most of it in New England and New York, and almost entirely in fine woolled sheep. In the State of New York alone, since 1840, the decrease exceeds four millions, and there were not as many sheep in this State in 1855 as in 1821. Since 1850, there has been no sensible increase in any State, while there has been during the last three years a decrease in Ohio and Michigan.

The lowest point has probably been reached in the older States. The fine-wooled sheep have been exterminated, and the coarse-wooled mutton sheep are now fast taking their place. We may henceforth look for a gradual increase in numbers, and a large increase in the amount of meat brought to market. It is this kind of wool that will be most affected in price by the introduction of free wool. The quantity, however, at present is not large, and cannot be materially affected this year, nor will foreign wool markets show a decline from present prices.

The clip of this year will not be equal to that of the last, so that no surplus can be accumulated and held over to bear down prices, nor is there now any surplus for dealers or manufacturers to fall back upon. The only means they have to lighten the farmers into low prices, will be to make them believe that large stocks of foreign wool are to be brought in at low prices under the new tariff. We

hope no farmer will be duped by any such story, for if told, it will be a sheer fabrication. The present price of wool is all the foreign wool markets readers the whole thing morally impossible.

The price of the finer grades of wool has advanced from 10 to 20 per cent, in all the foreign markets over the last year's prices. The German wools are so high that the English find it difficult to get a supply there, and are thrown upon the better grades of our own stock, and have thereby enhanced the value of all grades of Cape and Australian wools, as well as the better grades of South American. If it were not for the unsatisfactory condition of the market for woolen goods, the price of wool, owing to the decreased production, would rate higher in this market than for many years past. So far, however, and unsatisfactory has been the market for some two or three years that the manufacturing has not increased; for, while our own clip has not increased, the importations of wool for the past year have fallen on nearly five millions of pounds as compared with the three past years.

There is no good reason why the farmers should dispose of their wool at any less price than they obtained last year. The rates at which it would be safe to sell should be, for Saxony 80 a 75c.

Merino 42 a 55c.
Fine Grades 39 a 45c.
Low do. & common 32 a 39c.

It must be understood, however, that these prices are only for wool in prime condition, clean, well put up, and light.—N. Y. Tribune.

The Hamilton Banner says that Sir Allan McNab intends, it is said, to resign his seat for Hamilton and go to Europe to live. Good! There will be one less less-sucking Canada's best blood.

The Steamer Collingwood, Captain McGregor will leave Collingwood on her first trip to the North Shore and the South in about ten days. Captain M. is well known on the route, and will make the Collingwood popular.—Globe.

THE WHEAT CROP IN ILLINOIS promises badly, especially in the Southern and Western Counties. The hard, steady winter, and cold wet Spring have frozen out and winter-killed a great deal, and prevented sowing this Spring. Corn has been eaten up by cattle in the worst of ways. The prospect for a bounteous harvest is gloomy.

Be the cause what it may, the Globe takes the damning disclosures of the railway bribery and fraud much more coolly than the Colonist. Morrison, in my opinion, is a more corrupt, venal character than even Buchanan, DeBlaquiere or Rankin. The Hinkley school is steeped in infamy.—Message.

A letter written from Utah Territory, March 2, contains the following paragraph:—"I think a great many will leave here in the spring. Brigham and Cummins, with two or three hundred missionaries, I hear, are going to leave here on the 1st of May, to explore north in the British possession for a more suitable country for them."

Last week, twelve lottery ticket depots were simultaneously visited by the police in Kingston, in six of which tickets of the United States State Lottery were found, and the parties were arrested. At Myrick's office, No. 60 State street, over 1,300 tickets, with schemes, &c., were seized. The descent was very successful.

The New York Herald of Friday last says:—"The Lord Bishop of Toronto and Sir John Beverley Robinson, Chief Justice of Canada, are at the Brevoort House, corner of Eighth and Fifth streets. The bishop officiated at the marriage of a relative to a lady of this city, at Trinity church, on Tuesday last. It will be recollected that the distinguished Chief Justice is an F. F. V."

TOWNSEND POSITIVELY IDENTIFIED.—We are informed on credible authority that a telegram was yesterday received from the Police authorities at Cleveland to the effect that the notorious "Townsend" is at length identified, and that the necessary papers are being made out at Washington to enable him to be handed over to the authorities of this country. We may soon expect that he will be tried for the horrible crimes of which he has been the perpetrator.

JENNY LIND.—A correspondent of the Christian Enquirer, writing from Vienna, says, that while visiting Jenny Lind in Dresden, he found her in the full enjoyment of domestic life. She has a fine boy three and a half years old. Her voice is as excellent as ever, and I am glad, says the correspondent, to be able to say that we have at least a chance of hearing her again in the United States, for she will probably settle down permanently either in England or in the United States within six months.

NEW BRUNSWICK ELECTIONS.—The Carleton (N. B.) Sentinel gives the following list of members returned at the recent general election:—

LIBERALS.—Wright, Giddip, Tilley, Harding, McLean, Lewis, Tibbitts, Walters, Sutton, Mitchell, Johnson, Smith, Steadman, Gilbert, Gilmer, McAdam, Brown, Chandler, Ferris, McLeod, McMillan, Tapley, W. E. Perley, Connell, C. Perley and Fisher—26.

TORIES.—Wilnot, Gray, Kerr, Boisford, Montgomery, McPhedon, Desbaisay, Vall, Earle, H. Gilbert, Reed, End, Macpherson, McIntosh and Allen.

The Chicago Tribune of May 20th, says:—"The staunch new propper Ontario, Capt. Ben. Wilkins, reached this port yesterday morning from Collingwood with a cargo of lumber, whitefish and merchandise. This was an advance of any propper from Buffalo this season. The Ontario left Collingwood on the 7th inst., and of course has had a hard time of it in the frozen regions of Georgian Bay and Lake Huron. The first day she only advanced two miles, the next thirty, when she became ice-bound, knocked about at the will of immense ice-fields of incredible thickness, splitting her stern once, but only slightly damaging, till the 15th inst., when she came along. On the 16th, Saturday last, a terrific snow storm was experienced in Lake Huron, but after that she came on well enough; the straits were clear, and a fleet of downward bound vessels met between there and the Manitouls."

QUEEN'S BIRTHDAY AT COLLINGWOOD.—Monday was celebrated in Collingwood in fine style. Triumphant arches were erected across Huron street, First and Huron streets; the hotels of Messrs. Anderson, Montgomery, Bonner, Wiggin, and Patton, and the stores of Messrs. Anderson, Ferguson, Macdonell, Smith, and Telfer, were dressed with flags. There was a procession during the day, of the Volunteer Rifle Company with band and the Fire Company, the engine being drawn by four grey horses. The steamer Collingwood and Canadian, and sailing vessels, Northumberland, Hope, Challenge and many smaller craft were decorated, and the smooth waters of the bay presented a very lively scene. The Rifles and the Fire Company lined together in the evening at Patton's Georgian Hotel, and kept up the festivities to a late hour.—Globe.

TORONTO MARKETS.

Tuesday, May 26th, 1887.
Wheat—Yesterday the price was again better, the greater part of 2,500 bush, moving off at 9s 2d—some lead at 9s 2d—the average price for the day would be about 9s 1d; to-day the same prices were maintained.
Oats—We quote superior No. 1 at 80 25 a 86 50; Fancy, 87 a 87 25; Extra, 87 50 a 87 75; Double Extra, 88 a 89 50. The outside figures must be regarded as the extreme rates.
Oats 3s 9d per bushel.
Rye 4s and scarce.

NEWMARKET MARKETS.

Newmarket, May 29th, 1887.
During the week our market has maintained the prices quoted with but slight advance in the price of Oats. We quote as follows:
Fall Wheat, 8s 0d a 8d 3d per bushel.
Spring Wheat about 2s less than for fall.
Floor 38s 9d, a 41s 3.
Oats—Some sales have taken place during the week at 3s 3d.

Bitch.
In Newmarket, on the 29th inst., the wife of Mr. Abel Kinsey, of a son.

Birth.
In King, on Friday May 22nd, Mary Johnson departed this life after a lingering confinement to her bed of several months. Having arrived at the mature age of 73 years and passed her pilgrimage in good repute, she left this transitory existence, with a good hope through Christ, inheriting a home "Eternal in the Heavens."

Her funeral took place on Sabbath last, and was attended by a numerous company of deceased's friends and relatives.

Thus one

TEA AND COFFEE WAREHOUSE

NEW ZEALAND ADVERTISER, FRIDAY, FEBRUARY 11, 1871.

M. S. CORRYELL

Thanks to the Public for the liberal patronage they have bestowed on him since he has commenced business; and from the great inducements he holds out, hopes to be favoured with a continuance of the same.

M. S. C. has just received very large importations, and is daily receiving more, as that in a few days

His Stock will be found Complete,

carefully selected, with his generally acknowledged good taste. The following list affords a slight idea of his Stock:—

Teas	Cigars	Shoe Blacking
Coffees	Oysters	Brushes
Sugars	Salmon	Brooms
Rice	Loibsters	Pails
Raisins	Sardines	Wash Tubs
Currants	Stoughton Bitters	Butter Prints
Tobaccos	Catnap	Rolling Pins
Harvey Sauce	Metzelsium and	Essence Anchovy
Herrings, dried	Fancy Pipes, all kinds	Pickles
and Pickled	Hair Oil	Dutch Mustard
Cod Fish, dried	Olive Oil	English Cheeses
and Pickled	Castor Oil	Perfumery
Champagne	Lamp Oil	Brandy
Molasses	Ale and Porter	Holland Gin
Syrup	Pure Wine	Old Tom
Baking Powder	Sherry Wine by the	Wild-See
Sabratras	Bottle or Draught	Common and Taddy
&c.	&c.	&c.

And in fact every description of Family Groceries, Crockery, China, Glass and Wooden Ware, Wines, Liquors, &c., &c., all of which he will sell at the lowest possible Cash prices.

M. S. C. will further call your attention to his Large and Splendid Assortment of Teas, which he defies competition this side of New York. Call and examine for yourselves and you will be satisfied for your trouble. Never go to Toronto to purchase by Wholesale or Retail if you wish to save your time and money before calling at

M. S. CORRYELL'S

MAIN STREET, OPPOSITE THE NORTH AMERICAN HOTEL.

Newmarket, Jan. 29th, 1857.

"**Equitable**" Fire Insurance Company
OF LONDON.

CAPITAL, £500,000 STERLING.

General Agent, British North American Colonies
FREDERICK R. STARR.

MONTREAL.

This Office insures against Loss or Damage by Fire, all descriptions of Buildings, including Mills and Manufactories, and the Goods, Wares and Merchandise in the same; Ships in Harbour or in dock, Craft on Navigable Rivers and Canals, and the Goods laden in the same; and Farming Stock of all descriptions.

The "Equitable" Fire Office will, by constant analysis of its own experience from time to time, adopt such rates of Premiums as the nature of the risk may justify.

With this view, an annual investigation will be made into each class of risk, and a return of the money of fifty per cent. of the net excess will be made to all classes of Insurers, whose Policies have been in force for three years.

The engagements of the "Equitable" are

guaranteed by a responsible proprietary, and
 an ample subscribed Capital. The insured
 are free from the liabilities of a *Mutual Insurance*
Society and entitled, according to the
 plan of the Company, to a return of half the
 profits.
 Losses are made good without deduction or
 discount, and are adjusted and paid in Mon-
 treal, without reference to London.
 R. H. SMITH, Agent.
 Newmarket.
 March 12th, 1852.

 The Subscribers have been duly appointed Agent
 in Newmarket, for the above Company, and will
 give personal attention to parties desirous of effecting
 Insurance etc.
 THOMAS NIXON, M-2
 Newmarket, Feb. 17, 1854.

Patent Lifting

THE Subscriber has pleasure in announcing that they are now prepared to receive orders for the Manufacture and erection of their

PATENT LIFTING PUMP,
Invented by Mr. John Dennis—one of the first and most celebrated Judges to have been a superior kind of Pump now in use. From the nature and simplicity of its construction, by the aid of the

SPRING PISTON,
or raised and sunk Piston, working in an Iron cylinder, the water, instead of being sucked up as in most kinds, is lifted from the bottom—and with great ease—thus avoiding friction and thereby rendering it almost impossible to get out of repair. These pumps are made of cast Iron, from bolts to the platform covering the well and to the pump.

These pumps have been tried in wells to the depth of from fifty to seventy feet, with admirable success—and satisfactory references can be given.

Warranty to extend for Three Years.

The subscribers are also manufacturing an excellent

WOODEN PUMP,
Adapted to Wells Forty feet deep, or less, to which they would call attention. Upwards of 400 of these Pumps have been sold in this Section of country during the past summer. References may be given to any character that was given to any person calling at their Manufactory, Newmarket.

All orders for either of the above Pumps, addressed [post paid] to the Newmarket Post-Office, will receive prompt attention.

J. JAMES & Co.

will sell
Newmarket, Aug. 21, 1856.
